The Committee took note that CMDA carried out Locking and Sealing on 6 cases as these cases were matured on 30.10.2011 and free of any impediment in the process of Law that were matured on 31.10.2011 and Chennai Corporation carried out Locking and Sealing on 19 cases. In the other cases, the process like disposal of Regularization applications, appeal petitions, Court cases, representation etc., is on.

Expressing concern over lack of interdepartmental coordination, the Committee suggested to streamline the interdepartmental coordination within CMDA covering Regularization Unit, Legal Division and Appeal Division to ensure coordinated action on disposing of the pending matters so that the locking and sealing can be carried out without any undue delay.

While appreciating the joint and coordinated efforts taken by CMDA, Chennai Corporation and other Agencies viz. TNEB, CMWSSB, Police Department in making a good beginning on implementation of the stringent measures of enforcement on the unauthorized commercial buildings, in the lines suggested by the Monitoring Committee, the Committee emphasized and directed the agencies to continue this effort and keep the momentum and pursue the enforcement action following due process of Law with similar commitment.

While appreciating the necessity to proceed action on the cases following the due process of Law, the Committee emphasized coordinated and expeditious action in disposing of these cases quickly in order to proceed further.

In this meeting 14 cases relating to Regularization applications and Reg. appeals to the Govt. were placed before the Monitoring Committee and decisions have been taken on the merit of these cases. CMDA shall dispose of the remaining cases of Regularization applications that are possible to be disposed of without bringing it to the Monitoring Committee, in case, the evidences furnished are not credible. The CMDA shall also complete the verification of disposal of appeal petition said to have been preferred before the Govt. under Section 79, within a week. The Legal Cell may expedite action on clearance of cases covered in the Court proceedings.

In cases related to Chennai Corporation, it is found that Locking and Sealing could not be carried out on 2 cases because of reported pending of Regularization applications in CMDA and on 9 cases because of Court proceedings covered under the stay granted in the lower Courts. Chennai Corporation may expedite legal course of action for getting these stay vacated.

In order to critically examine interdepartmental coordination issues/process delays and to suggest measures to over-come the same, a Sub-Committee is constituted with the following members:

- (i) The Member-Secretary, CMDA
- (ii) The Commissioner, Chennai Corporation
- (iii) Prof. Suresh Kuppaswamy

The Committee studied the Hon’ble Supreme Court order dated 11.11.2011 and is of the firm view that the position of status quo is to be maintained only in respect of the buildings located in T. **General:**

Considering the positive impact of the latest enforcement action on major unauthorized buildings that was possible mainly because of coordinated action by different agencies and organizations and the civil society, the Committee underlined the need to keep this momentum going by adopting the following three principles viz.

- (i) keep committed to subject major unauthorized buildings-particularly the Commercial buildings, to stringent enforcement action;
- (ii) showing sustained progress in this herculean task;
- (iii) maintaining the momentum and keep the process going following the due process of Law with required strengthening measures to do so.

The Committee observed that pursuing enforcement action involves cross reference of files, processes of collecting and verifying several documents from different Divisions like Legal Cell, Appeal Division, Regularization Unit etc. As these are interrelated and interconnected activities to proceed with enforcement action, the Committee suggested sustained and focused efforts on computerisation of these processes with cross linkage for referral and digitization of maps of the approval plans and other referral documents.

The Committee requested the Director of Fire and Rescue Services to submit a status report urgently on the fire safety of the individual buildings in T.Nagar that are covered in the T.Nagar Survey Report and fitness of these buildings to function as commercial establishments from the point of view of fire safety and public safety.

Such report which can be brought to the notice of the Hon'ble High Court may be submitted within a week as inspection and other fire safety reports said to have been readily available with the Department.

While taking cognizance of the reports about loss of employment of workers in T.Nagar due to enforcement action, the Committee while expressing sympathy with the workers reminded that the potential for fire hazard and threat to human life in T.Nagar covering Usman Road and Ranganathan Street is very high, which has to be given higher weightage than temporary loss of livelihood.

The Committee decided to review the matters relating to further course of enforcement action in the next Monitoring Committee meeting after hearing in the High Court on 30.11.2011.
